

Drug Exclusions

July 1, 2017

These drugs are excluded from coverage as of the date of this list. We will update the list frequently, but it is subject to change at any time. Your pharmacy benefit may not cover certain categories of drugs, such as those used to treat weight loss or sexual dysfunction. Please check your plan materials for details about coverage for a specific drug category.

Specialty drugs are listed with a (#). Generic drugs listed with a (^) are excluded from coverage only when produced by certain manufacturers, but may be available from alternate sources — consult your pharmacist for more information.

Formulary Exceptions

Providers or members may request a formulary exception for any of the excluded drugs listed by following these steps:

Providers

To request a formulary exception for a drug noted with a (+), call **866-814-5506**. To request a formulary exception for all other listed drugs, call the recertification number on the back of the member's ID card.

Members

To request a formulary exception for all drugs listed, call the Customer Service number on the back of your ID card.

Note: Formulary exceptions cannot be considered without required documentation from the member's health care provider.

Excluded Drug List

Absorica	antipyrine/benzocaine (^)	brimonidine tartrate (^)	D.H.E. (brand)
